Dear Research Quality Teams,

We completed the Year 4 milestones last Friday on a very high note! **We are pleased to announce that ALL units achieved their compliance metric for the June 30th SCAP attestation milestone, congratulations RQTS!** In addition, all teams submitted at least one Data Management survey and those that had a pending Year 3 SMART Goal related to data management submitted their reports. We are so thankful for your hard work making all that happen!

Section U in REDCap has been updated to reflect your final SCAP numbers and compliance achievement for the milestone. Please let us know if you have any questions at all.

In the coming weeks, RQMP will be developing the Year 5 milestones and will keep you updated in future RQMP General Announcements.
